

Improving Your School

District-Wide Goals:	State the district goal(s) with which your plan aligns:		
Conduct a Data Analysis	<p>Explain your findings from your analysis of multiple sources of disaggregated data.</p> <p>Report your analysis of these findings. Examine the root causes for the results you are getting.</p>		
Determine School Goal	State your overall school goal for this area of focus.		
Establish and Implement a Strategy	<p>Explain the selected strategy.</p> <p>Itemize multiple, differentiated professional learning opportunities.</p> <p>List the resources that the strategy will require.</p> <p>Determine how will you involve each of the following groups in the implementation of the selected strategy:</p>		
Itemize Action Steps Required to Implement the Strategy	List the action steps for implementation that the strategy requires.	Determine the people responsible for each action step.	State the timeframe (beginning and completion) for each action step.
Select the Indicators Used to Monitor the Impact of the Strategy	<p>List the measures you will monitor <u>at least monthly</u> with your leadership team and other selected stakeholders to ensure the success of the strategy.</p> <p>Determine how you will adjust the strategy if it is not improving student performance.</p>		
Determine the Necessary District Support	State the assistance needed from the District to support the implementation of the strategy.		

Additional Notes:
