

# School Improvement Planning

A Process for Planning, Monitoring, and Reporting

1. Involves all stakeholders actively in the creation and implementation of the plan
2. Determines school goals based upon school's areas for growth and district-wide broad strategic goals
3. Identifies indicators for school success and analyzes data frequently (minimally monthly), including disaggregated data.
4. Publishes areas of strengths and areas for growth for all stakeholders to analyze and act on
5. Ensures and reflects a systematic understanding of best instructional strategies
6. Identifies action steps, including best instructional strategies, to implement
7. Emphasizes differentiated professional learning based upon the needs of the staff
8. Monitors progress towards goals, tracks impact, and involves mid-course corrections as needed
9. Communicates effectively with all stakeholders, gaining their support and celebrating the schools' success
